

A complete enterprise collaboration platform that employees actually like — and IT, too

It's time to modernize your intranet and bring the power of integrated collaboration to your organization. Jive goes where no intranet has gone before, connecting your people, information and systems in a single collaboration and communication hub across mobile and desktop devices. It's an out-of-the-box collaboration platform that people really use and makes employees much more productive – all while slashing total cost of ownership, reducing IT workload and enhancing other applications, like Office 365.

Solves your biggest IT challenges:

- **Lowest TCO:** an out-of-the-box, cloud-based, evergreen platform that's quick and easy to configure, launch and maintain.
- **Highest user adoption:** a consumer-quality, personalized browser and mobile experience drives usage, engagement and rapid ROI.
- **Integrated hub:** brings together disconnected tools and systems in a unified collaboration experience, enabling you to renovate or retire legacy systems.
- **Extends O365:** makes Office 365 much more useful and user-friendly, providing a single place to collaborate on O365 documents no matter where they're stored.

Features and capabilities:

- **Smart search** across people, places and content based on the social graph.
- **Analytics:** powerful, easy-to-use analytics provide unprecedented visibility into processes, interactions and engagement across your business.
- **Mobile:** compelling, consumer-style mobile experience keeps employees connected and productive everywhere they go.
- **Enterprise-grade security,** ISO 27001:2013 certified.
- **Deep integrations** for SAML/SSO, Active Directory/LDAP, Microsoft Office 365, Outlook, Office & SharePoint 2013; Google for Work; Cisco WebEx & Jabber; Box.com & Dropbox; Salesforce & SugarCRM; ServiceNow, Zendesk & Jira.
- **Purpose-built experiences** for employee onboarding, sales enablement, HR portal, IT help desk and more.

Companies using Jive:

Actual results from hundreds of Jive's customer organizations, confirmed by independent researchers

What Jive customers are saying:

"With Jive you get the best of both worlds: the industry-leading collaboration platform plus the ability to integrate all the other tools, products and services that you need. It's a single platform through which I can deliver a ubiquitous experience to make our employees more productive."

— CIO

"Jive has taken a big load off my team from an operations perspective and also provides a collaborative, modern, engaging platform for our employees to collaborate with us around the IT enhancements we're bringing to the firm."

— CIO

"As a CIO, one of the things I appreciate most about Jive is the continuous and significant investment in innovation, because it removes a lot of that responsibility off of my shoulders."

— CIO

"The thing I love most about Jive is this is the first system in my over 20 years of experience that I never had to force a user to use."

— Sr. VP of IT

"The thing I love most about Jive is this is the first system in my over 20 years of experience that I never had to force a user to use."

— Sr. VP of IT

"We collaborate much more, we connect more, we communicate much more frequently, and we're much more rapid in the way that we do it."

— VP Digital

Jive Enterprise Collaboration — Mobile, Integrated, Extensible.
